

ABSTRACT SUBMISSION GUIDELINES

Title:

- The title should be concise and reflect the content of the abstract.
- Use sentence case (capitalize only the first word and proper nouns).

Authors:

- List all authors, with the presenting author listed first and underlined.
- Include affiliations for each author (e.g., department, institution, city, country).

Abstract Structure:

1. Background/Introduction

- Briefly state the context and rationale for the study.
- Describe the problem or research question addressed.

2. Objective:

- Clearly state the main objective or hypothesis of the study.

3. Methods:

- Provide a concise description of the study design, setting, participants, interventions (if any), and main outcome measures.
- Include information about data collection and analysis.

4. Results:

- Summarize the main findings of the study with appropriate data and statistical significance.
- Avoid using tables or figures in the abstract.

5. Conclusion:

- Highlight the significance of the findings and their implications for future research, clinical practice, or policy.

Keywords: Include 3-5 keywords that best describe the content of the abstract.

ABSTRACT SUBMISSION GUIDELINES
